Cabinet Installation

Specifications for swing-out tray
of right Opening

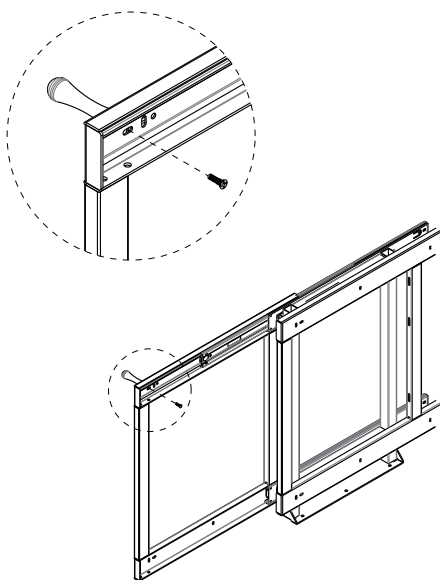

Specifications for swing-out tray
of left Opening

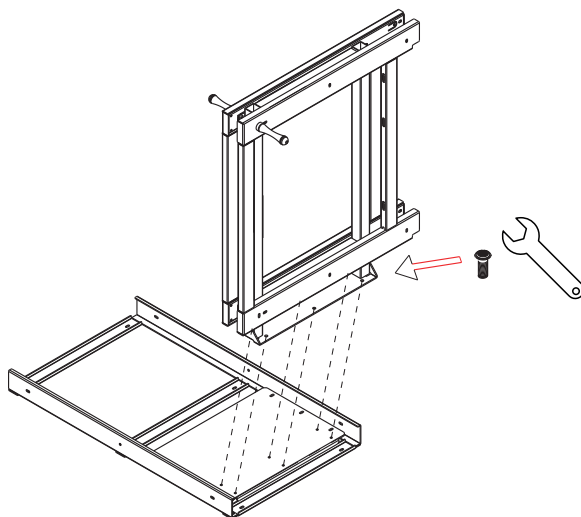

1. Installation of Handle

Pull out the frame, install the handle on the frame with M4 screws.

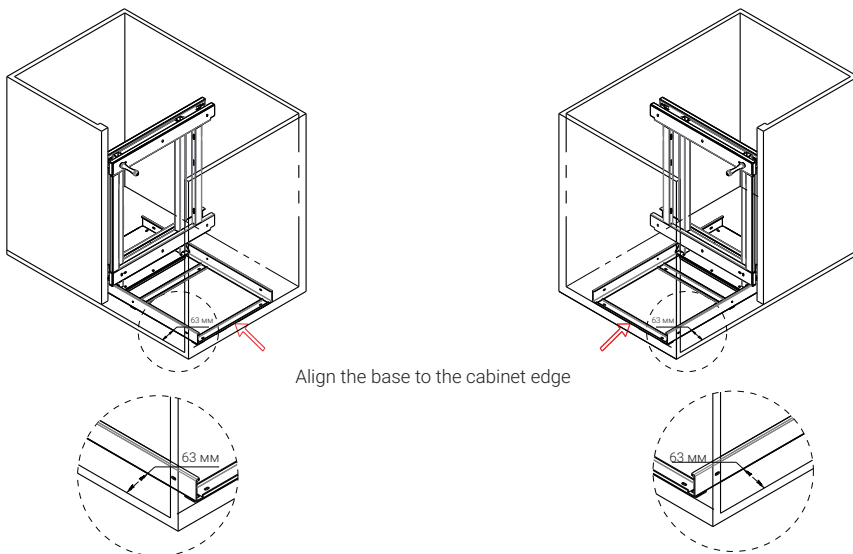

2. Installation of Frame and Base

Use the wrench and M5 hexagonal screws to lock the frame and base together

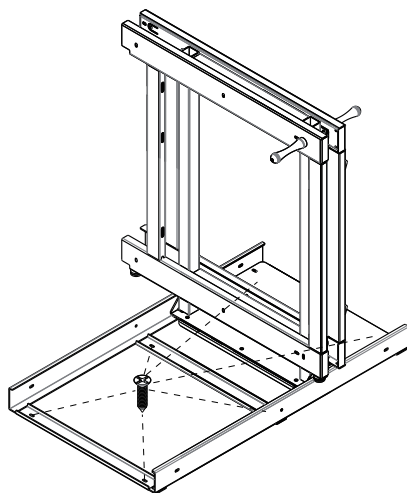

3. Installation for swing-out tray of right and left opening

As shown in picture, align the base to the cabinet edge according to the left/right opening of the cabinet. Leave 63 mm distance between the base and the door. Fix the base in the cabinet with self-tapping screws

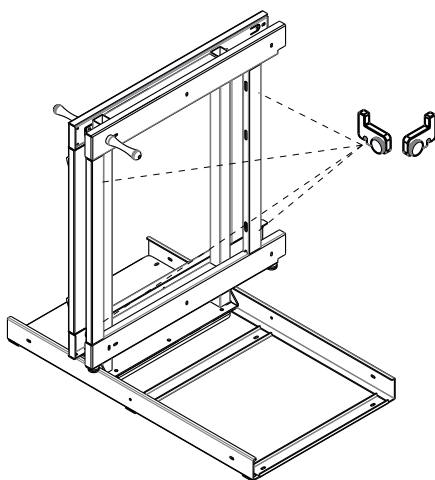

Installation of the base

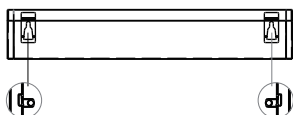

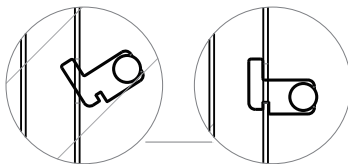

Installation of the Hooks

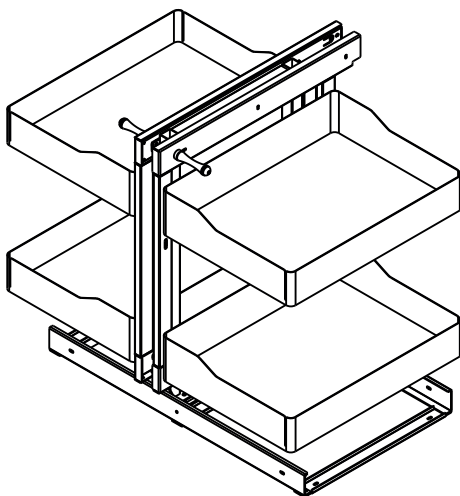

Attach the hooks to the main frame and hang the baskets
