

CREATING PERFECT INTERIORS IS EASY WITH VIYAR!

It is one of the largest suppliers of materials, fittings and processing services.

ViYar offers:

The largest selection of materials for furniture production and interior design. More than 1000 decors of board and front materials, 2000 options of handles, as well as floor coverings, wall panels and many others. In total – more than 30 000 items!

Powerful production capabilities. All types of processing services of materials, production of fronts (TM Bel Viso) and processing services of a stone (TM BELTERNO), express production in 1 day.

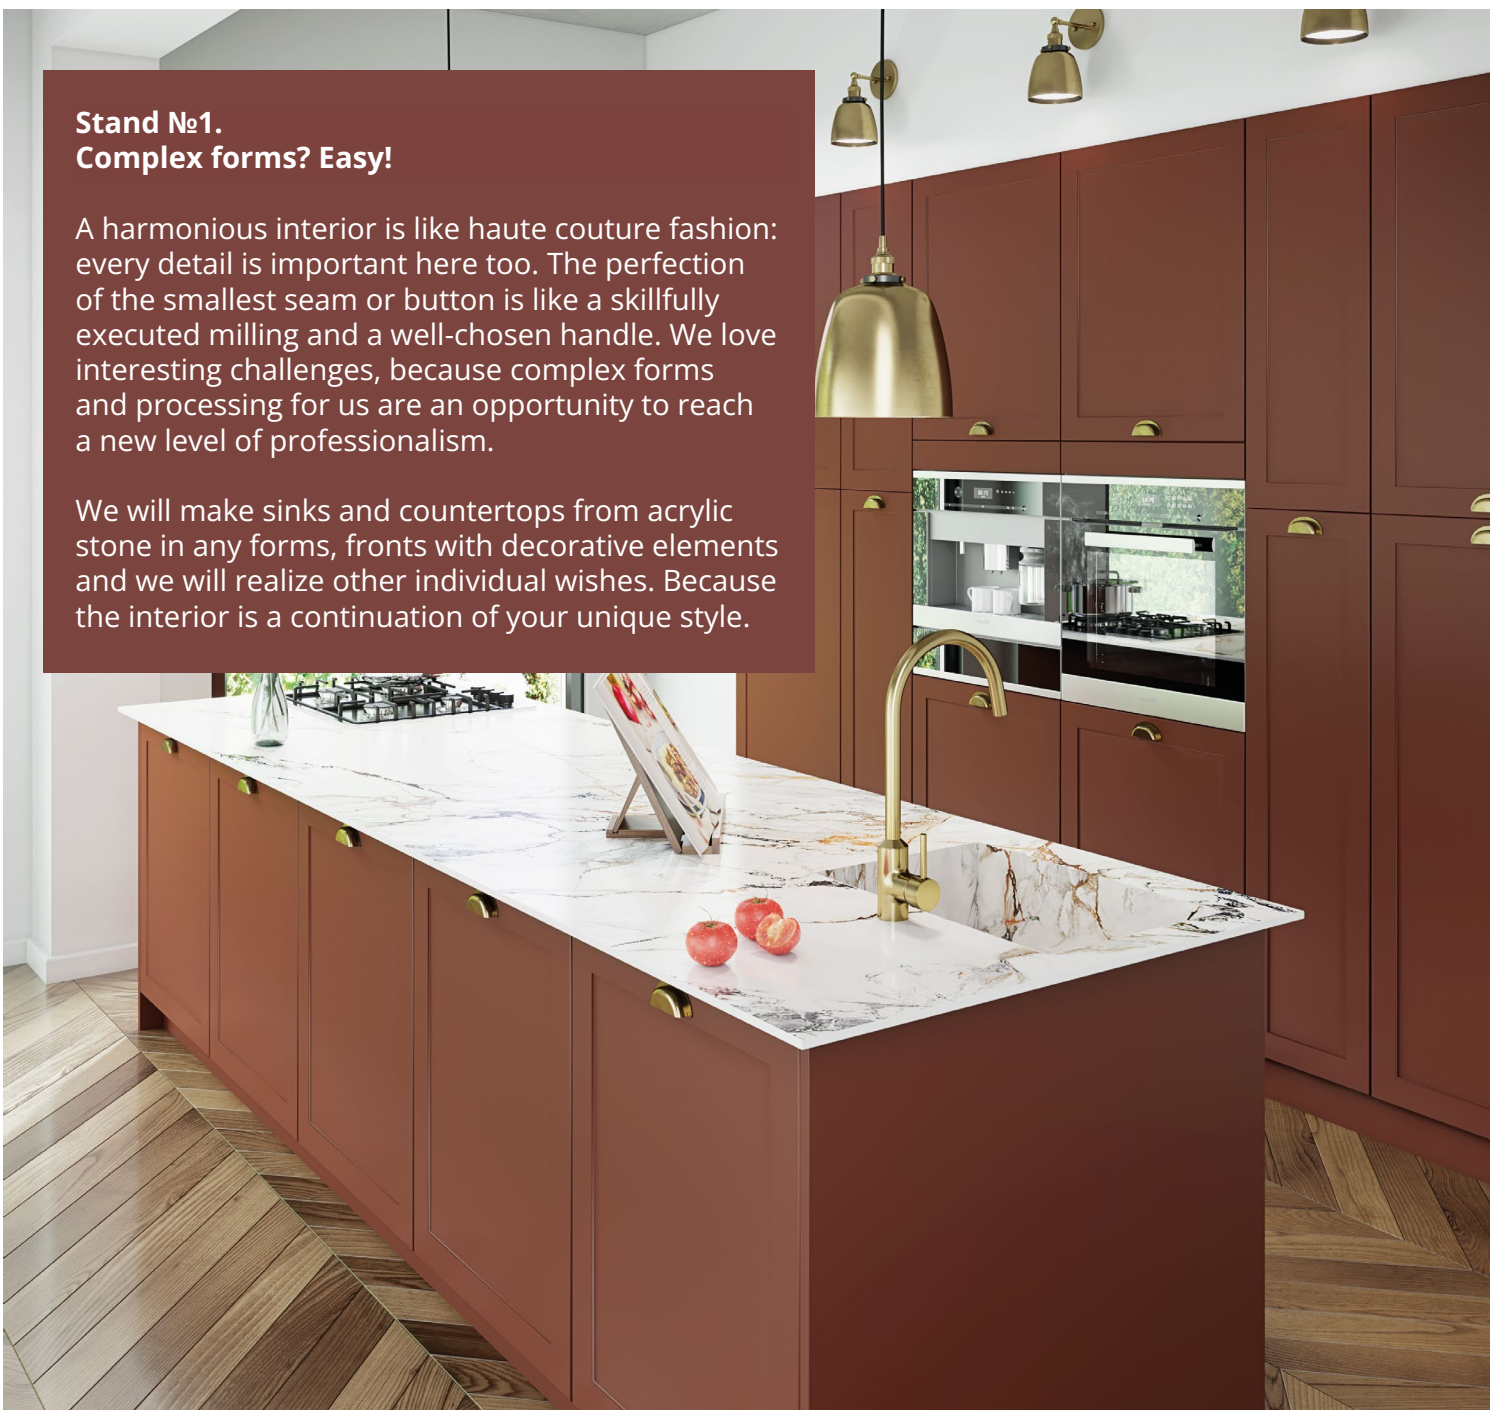

A new level of service. Individual approach, your personal manager, promotional products.

Let's take a closer look at our capabilities.

Stand №1. Complex forms? Easy!

A harmonious interior is like haute couture fashion: every detail is important here too. The perfection of the smallest seam or button is like a skillfully executed milling and a well-chosen handle. We love interesting challenges, because complex forms and processing for us are an opportunity to reach a new level of professionalism.

We will make sinks and countertops from acrylic stone in any forms, fronts with decorative elements and we will realize other individual wishes. Because the interior is a continuation of your unique style.

Materials:

1. MDF Walnut American Radial
(77343)

15234.96 black gloss (69704)

17. Handle Marella M 24232.30
copper (69716)

18. Handle Ferro Fiori M
0090.01 black Soft-touch
(115433)

Stand №2. Emphasis on naturalness

Natural materials are in trend, which, in particular, was demonstrated by the ISaloni exhibition in Milan. We really like this trend! The most pleasant textures and colors are created by nature itself, so we are inspired by it. The combination of stone and wood, the contrast of textures and sensations – this is what sets the tone of this interior.

To make the design especially homey and relaxing, we added a fireplace. The coziness of a country house is possible even in an apartment in a high-rise building, because the main thing is the atmosphere.

Materials:

1. Porcelain Neolith
Calacatta Luxe glossy
12 mm

2. Painted fronts Bel Viso

3. Veneered boards

4. Egger Design GreenTec
Large EPD045 Slate Jurassic
anthracite (123770)

Stand №3.

Interesting combinations and visual effects

Unusual combinations of decors and textures are not necessarily expensive.

An interesting visual effect is created by a combination of foiled fronts, as well as Cleaf, Niemann and AGT. Here are combined smooth and textured surfaces with lines and rhombuses.

Experiment with ViYar, create your own unique combinations. We are constantly expanding our range, following trends and doing our best to offer the most various and high-quality selection of materials for your projects.

Materials:

1. Front PVC Dust gray NL
7415 Serica (49135)
